I do know **Mohaddeseh** since fall 2012, as an undergraduate student and later as a graduate student admitted in our M.Sc. program. In her studies, she took several courses (three undergraduate and two graduate courses) with me and her performance in all courses **were excellent**, and always her rank was in the **top 10% of the class**. **Mohaddeseh** has also **ranked 1st** among the graduate students admitted in fall 2017 and has a pleasant personality and is very good at reading, writing, and speaking English.

Mohaddeseh defended her **thesis in September 2019 under Dr. M. Raji's supervision**. Her thesis title is **"An Uncertainty-aware Multi-Objective Genetic Algorithm based Task Scheduling for Embedded Systems"** which was evaluated as **excellent (19.50/20)** by the thesis committee.

Mohaddeseh also has been teaching assistant for following graduate and undergraduate computer science courses **and her performance were excellent**. **Parallel Algorithms** (fall 2018), **Designing and Analyzing Algorithms** (fall 2019), **Operating Systems** (spring 2018), **Principles of Programming** (fall 2017), **Computer Architecture** (fall 2017, spring 2017, fall 2018).

Mohaddeseh has gained a lot of professional and academic experiences in recent years.
