

Shiraz University
Department of Computer Science and
Engineering and Information Technology
School of Electrical and Computer Engineering

In the name of God

To Whom It May Concern:

It is with great pleasure that I am recommending Miss Mohaddaseh Nikseresht to you. I have had an opportunity to observe Mohaddaseh's educational development over the past 8 years, and I am fully confident that she is highly motivated and has vast knowledge in different areas of computer science and engineering as she was selected as a member of the Olympic scientific team by Shiraz University in her last year of bachelor's in 2016-2017. The third and last year's bachelor students participate in this competition and will take exams on different basic topics, like the Operational System, Design of Algorithms, Data Structure, etc, and only the top five participants will be elected based on their ranks in exams. I was the head coordinator of selection and exams at the time.

As a Professor of Computer Science at Shiraz University I have instructed many students in the subject. However, Miss. Nikseresht's willingness to learn and dedication has stood out among her colleagues. she was selected as ranked first during her master's with a GPA of 18.80 whereas the average GPA's grades were 12.72. I had the pleasure of Miss. Nikseresht's presence in two of my classes.

Moreover, she is very responsible and does her best, as she has been the main teaching assistant for several bachelor's courses and one course of master's. she has always shown her enthusiasm to assist other students and provide them with the technical details that they need. She is a very pleasant and polite person and has the spirit of team working. Additionally, I can claim that her English is very good in all skills. As of now, she is following her research at KU Leuven university in Belgium. I believe she will be a valuable asset to the postdoc position in your department as well.

All in all, I believe that Mohaddaseh will be an excellent fit for this position. She has been nothing short of an exemplary student. If you need any further information about Miss. Nikseresht, please do not hesitate to contact me.

Yours truly,
Dr. M. Taheri
Assistant Professor of Computer Science Dept.
of Shiraz University
